

Lab Results - Zoasis Web Based Test Results

Web Site is www.zoasis.com

To run you must have an internet connection operating before starting the transaction

1. Select **Lab Results** button on the VTech Main Menu
2. Enter **clientnumber** and **patient**
3. Select **Zoasis Web Results**
4. Log into Zoasis site as Veterinarian
5. Enter the actual clinic log in
6. Select **new lab results**
7. Select the correct patient and tests from the Zoasis list by checking the right hand block
8. From the top right Action menu select **save**.
9. The File Download window will appear. **Select Open**
10. The file will appear on the screen as a RTF file.
11. From the top menu bar **Select File>save as**
12. Enter **control V** in the name block. This automatically changes the name to **c:\Lab.Txt**.
13. In the File type block select **Plain.*TXT only**
14. Select save then Close the window
15. Close Zoasis web site
16. In Vtech select "**Click OK when done**". The full report text will appear in the document window
17. Select **Save to Lab Log** button
18. Exit **Lab log**
19. The file will be in the Lab comments of the Pet record

Note – Must have **mscomm32.ocx** and **IDXvetlab.dll** registered on PC to run reports
